Miniature 1/4W carbon film resistors

## General Specifications:

Temperature range: -55 to +125°C

Power dissipation: 0.25W

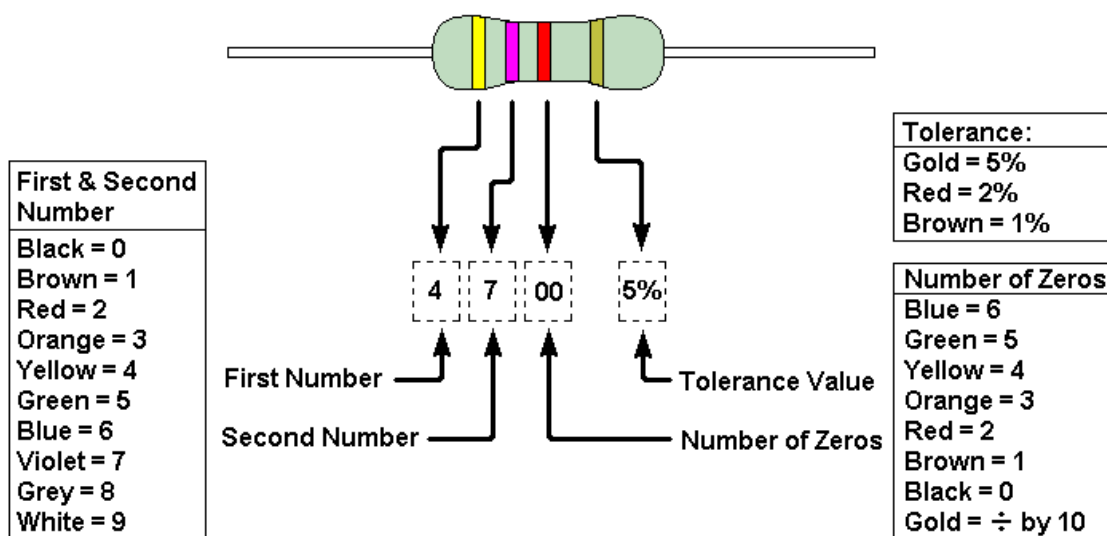

Max working voltage: 250V

Standard tolerance:  $\pm 5\%$

Resistant to solvents as per MIL-STD-202E-215. EIA standard colour coding (see below)

Meets or exceeds EIA-RS-196A, JIS-C-6402 & IEC-115. **RoHS compliant**

## How to work out the resistor value from the colour codes.
